Long story short, a fellow forum member of AudioScienceReview was kind enough to send me his pair of Bose 901 Series V speakers. Funny side story: he was going to send the Series IV he owned but had issues when it came time to refoam them so he sourced a very good condition pair of Series V's and shipped them to me. Given the Series VI is the ...

CAUTION: You must have a Bose 901 active equalizer for a complete 901 speaker system. The use of 901 Series VI speakers without the 901 Series VI active equalizer will result in improper per-formance. The use of graphic or parametric equalizers, instead of the Bose 901 equalizer, will result in unsatisfactory performance.

Let me start out saying I'm not an expert on critical listening. Nor would I deem myself an audiophile. However, I needed to share my bose 901 series V set up and then fade away. I looked hard for advice like I'm going to give here and didn't find it. Consequently, it took me weeks of spurious reading to figure out how to power my speakers.
