Garmin Fishfinder 90 | Owner's Manual - Page 8 Narrow Beam Wide Beam The wide beam is more helpful in shallow water, because it gives you a much wider view of objects in the water, including areas beyond the sides of your boat. At a 30-foot depth, the wide beam covers the area of approximately a 20-foot circle. Fishfinder 90/140 Owner's Manual

Garmin Fishfinder 90 | Owner's Manual

4 Fishfinder 90/140 Owner's Manual Getting Started The Fishfinder 90 and 140 include the latest technology in interpreting bottom signals; they can see through fish, structures, and thermoclines (shown in the weakest hues). Even so, large schools of fish or dense structures close to the bottom can affect water depth return readings.

GARMIN CATALYST™ - Garmin Support

When properly connected to an optional Garmin ® sounder module and a transducer, your compatible chartplotter can be used as a fishfinder. Different sonar views can help you view the fish in the area. The adjustments you can make to each sonar view vary depending on the view you are in and the chartplotter model, sounder module, and transducer you have connected.
